

## **Best Practices Compliance Verification Workshop**

**HBM + CDM + CBE + CDE**

**August 11, 12 and 13, 2026**

The Northeast ESD Chapter, in partnership with Dangelmayer Associates, is pleased to announce an in-person **3-day Best Practices Compliance Verification Workshop** designed for professionals responsible for executing ESD control measurements and compliance verification programs.

 **Location: BAE Systems, 65 Spit Brook Road, Nashua, NH 03060**

 **Duration: Three Days (Two days of training + One day Best Practices practical quiz)**

### **Course Overview**

This intensive program provides the knowledge and hands-on experience required to perform accurate ESD control measurements at workstations and within EPAs. Attendees will gain a strong understanding of:

- Human Body Model (HBM)
- Charged Device Model (CDM)
- Charged Board Event (CBE)
- Cable Discharge Event (CDE)
- Additional Class 0 and metal-to-metal discharge testing methods

Participants will learn how to:

- Select appropriate test equipment
- Verify proper equipment operation
- Troubleshoot unexpected measurement results
- Apply compliant and repeatable auditing methods

The course includes **live demonstrations, instructional videos, and five hands-on class exercises**, culminating in a one-on-one Best Practices practical quiz where students perform the measurements learned in class.

### **Training Agenda Highlights**

- Introduction & Preliminaries
- Compliance Verification Process
- Five Hands-On Class Exercises
- ESD Basics
- Compliance Verification & Troubleshooting
- Auditor Measurement Pitfalls
- Additional Auditing Measurements
- CDM/CBE/CDE Basics
- Examples: Audit Findings & QMS Strategy
- Best Practices Practical Quiz (HBM + CDM + CBE + CDE)
